

### LIBERALS IN MAJOR FORCE

### POSTMASTER GENERAL FLETCHER THE ONLY SPEAKER ON DEBATE YESTERDAY

Both Turkey and Balkan States Take Unyielding Position on This Question.

### POSTER AND CLARK HELD IN RESERVE

No Decision Yet As To How Long the Liberals Will Continue Debate.

By Bulletin Leased Wire. Ottawa, Dec. 13.—The rather exciting day was anticipated in the commonsense and the galleries filled up early in anticipation of a sharp day of debate on the Laurier amendment to the government's naval resolution. The proceedings were not nearly so interesting as expected. Mr. J. H. P. Postmaster-general, after, resumed the discussion shortly after three o'clock and did not leave until half-past five. There were a few interesting interchanges during the speech, but toward the end he was asked in putting a number of questions on record and the interest faded a bit. The postmaster-general, in the course of his remarks, said that the proposed gift was only a preliminary and would be followed by a permanent naval policy, accompanied by an agreement, giving Canada a real voice in the councils of the empire.

**Mrs. D. Clark in Reserve.**  
The Liberals had proposed to get up Mr. Charles Clarke of Red Deer, but when they learned that Mr. Postmaster was not to speak, they changed their plans and Mr. Laforen of Montreal, followed by Mr. Postmaster-general with a long speech in French. He said he was prepared to stick to his seat many a night rather than leave the resolution to pass. Mr. Laforen contended that it was unfair to Canadian workers to spend the money in a foreign country.

**Mrs. D. J. A. M. St. Martin.** Brandon moved the adjournment of the debate. It is understood that the Liberals have not reached a definite decision as to how long they will continue their opposition to the resolution. A caucus will be held in Ottawa the day before the House resumes business after the holidays, at which a definite decision on action probably will be arrived at. It is understood that in addition to the members, it will be attended by other prominent men of the country.

**The local opposition.** The Hon. J. P. Postmaster, in a long editorial today, gave the opposition its first, and, for a general election.

**Mr. Pelletier continues.**  
The Hon. Mr. Pelletier continued the debate on the naval bill at the opening of the House today. He said that an effort had been made, by the Laurier plan, to bring something big to the end of the month, but nothing practical or useful at all. He said that it could only result in hampering the British navy. There had been an effort in other words, to make it appear that this navy would be on the wing line, but everyone agreed that the ships would actually be far away from where the fighting was taking place.

**The trial of strength will not take place in Canada or in Canadian waters.** said Mr. Pelletier. "If the moment of striking—which we hope will be averted—comes, the battle will be fought in the North sea and in the home waters of Britain. Everybody knows that. Then these ships will be in the North sea, and the Pacific will be all over."

**Compromise.**  
The minister inquired of the opposition how they proposed to man the fleet when the ships were sent to the Pacific to man the fleet. This was a comparison of the wages paid on the Canadian ships and on British ships in the Pacific. It was a comparison of the wages paid on the Canadian ships and on British ships in the Pacific. It was a comparison of the wages paid on the Canadian ships and on British ships in the Pacific.

### BUFFALO HAS A GRAIN BLOCKADE

### Fifty-Three Vessels in Line With Aggregate of 10,000,000 Bushels of Grain.

By Bulletin Leased Wire. Buffalo, Dec. 13.—Three miles of grain freighters, their hulls filled with millions of bushels of grain, are riding at anchor inside the breakwater of Buffalo's water harbor today, forming one of the heaviest blockades of grain in the history of the port. Fifty-three vessels in this line carry cargoes aggregating 10,000,000 bushels of crop grain practically all of it being wheat. In the inner harbor are twenty more vessels and a like number is expected from upper lake ports before the lake becomes frozen. The first five in winter quarters here are estimated at 170,000 tons. The grain will be transhipped at the rate of 1,000 cars a day during the winter, and the remainder will be shipped by canal in the spring.

# THEATRICAL FIELD IN EDMONTON DRAWS INVESTORS MONEY

New Theatre for Stock to be Built  
on Second Street Next  
Spring.

## VAUDEVILLE WILL BE PUT INTO MOVIE HOUSE

Three New Large Theatres Should  
be Opened in Edmonton  
During 1913.

Edmonton appears to be proving an attractive field for investors in the theatrical field. The latest news is that theatre stock is to start work on the first of next month on a fine theatre on Second street, where the theatre will be a whole new warehouse new structure. This theatre will be devoted to stock productions, it is said, and will be a model little theatre when finished.

If this house is completed before the end of the year, it will mean that three new theatres will be opened in Edmonton during 1913. There will be the new structure on Third street, the new structure on Second street, and the new stock theatre on the opposite side of the street.

It is quite within the bounds of possibility also that before the end of 1913 some amount of the theatre stock, in this class of entertainment, has taken a big hold in the city and such an investment would be a very profitable proposition.

During the past week the Vaudeville moving picture theatre has made a number of new purchases. It is stated that the new repertoire of the theatre has been purchased. # From The Free Lunch Room To Fame And \$2,500 Per Week

The Sudden Rise of Four Young Playwrights from Poverty to Plenty—A Square Meal Was Once an Event in Their Lives.

James Montgomery, author of "The Free Lunch Room," drawing down royalties of \$2,500 a week, was once a poor boy who had to work for his food. He was a playwright who wrote for the stage and the screen. He was a man who had to struggle for his life, but he succeeded. He was a man who had to struggle for his life, but he succeeded.

## AROUND THE CITY

The shooting of Mill Creek bridge is being visited by a group of city employees.  
 Loss of power is again given as the cause of the disturbance of the car service for two hours yesterday morning between the north and south side of the river.

Hillside are exceedingly plentiful this week. A farmer from the Hillside district was yesterday offering a wagon load of them in the market at 10 cents apiece.  
 The fire brigade had another run at one o'clock this morning, a call being received from the Mountain Cafe, Jasper Avenue between First and Second streets. The alarm in the kitchen had become overheated and ignited the stove. The house was quickly extinguished with the aid of the chemical.

Miss Little, who is to be married next week, was honored by her fellow members of the Young People's society of the Westminster Presbyterian church on Thursday evening, when she was presented with a variety of useful articles, including table linen, silver, cut glass, etc. Short addresses were given by E. L. Laitinen, chairman; Rev. Mr. Myers, Mr. Furler, Mr. J. E. and Mr. English, who eulogized the excellent work of Miss Little during the past two years. Mr. and Mrs. Leslie, Miss McIntosh and Mr. Nichols contributed to the program.

### CONCERT LAST NIGHT

The annual Christmas concert given by the students of the Alberta College School of Music took place in the auditorium of the McDonnell Methodist church last night, and was largely attended. The various numbers were exceedingly well rendered, as is always the case at these annual gatherings, and great credit was reflected upon the teachers for the manner in which the pupils acquitted themselves.

**BIRING SAMPLES FROM CALGARY.**  
 Detective Wm. McDonald, of the Calgary force, arrived in the city yesterday, with samples of what is supposed to be nitroglycerine found on the three men who were suspected of having blown up the C. N. R. safe. The samples will be analysed at the university laboratory.  
 W. H. Robertson, a homeostetist living forty miles north of the headwaters, brought to the city yesterday 215 rabbits, two brown foxes, seven beaver skins, and one otter skin. He states that fur-bearing animals and game of all descriptions are very numerous in the north this year.

**P. O. EMPLOYEE DIES SUDDENLY.**  
 Travers Noyes, who came to Edmonton in the early autumn of 1912, four months ago, and who has since been employed at the postoffice as a letter carrier, died very suddenly yesterday. He had been ill only since 1:30 the previous day, and the cause of death was pneumonia for which he was a patient for some time, saying that he was feeling unwell. The facts were reported to the coroner, Dr. Fort, and Mr. Holmes and Dr. Jamieson made a post-mortem, with the result that they found his death due to pneumonia. The coroner therefore decided an inquest unnecessary. His estate was uninsured, and lived at 114 Margaret.

### DECISION ON MONDAY

Comptroller Dan Fraser, who was knocked down by an automobile on the last level bridge several days ago, appeared in court yesterday to prefer a charge against P. J. Brooks for interfering with a peace officer. The complaint, owing to the congestion of traffic on the bridge, remained until the defendant was sent to his car, but the order was known, and the complaint was shown down and heard. The officer stated that the auto was driving at the rate of 15 miles an hour over the bridge, which was contrary to the government regulations regarding the speed at which a vehicle shall pass over a public bridge. Defiant duty shirking, the minister stood the sign of the officer. The magistrate said he would give his decision on Monday.

### "THE TRUTH SEEKERS"

The name "Truthseekers" designates a class of adult students which meets every Sunday afternoon at 3 o'clock in the Blue Moon tea room, 195 Blue street. The discussion of problems having an ethical or religious meaning. The class was organized as a branch of the University church work, but is open and free to people of all religious faiths or of none, and as the object of the class is to approach truth by the use of reason, the members study problems in which whose whose theological perspective in different directions. In the work of the class the fullest discussion is invited, and any's contribution is respected. All may not agree to their vision of truth, but it is hoped all are unconditionally sincere in their search for it.  
 For some time the class has been making a study, in a comparative way, of the ancient world religions and at the present time.

Heidheim is under discussion. Later will follow the study of such Christianity and the outcome out of which it grew, then of the historical development of Christianity, and of the more prominent sects by which it is represented today.  
 On behalf of the Truthseekers a formal invitation is extended to all who are interested in the study of such problems in a distinctly liberal way, to join the group or to come as occasional visitors. Young men and women, students in the city, or without permanent homes, are particularly invited to come in and get acquainted. Albert J. Pines, minister, University church.

A burning barrel of tar gave the firemen from J. McTavish a run, at about six o'clock this morning, to the 57 T. P. freight shed, near Namaya and Clarke. The blaze was extinguished with the aid of the chemical.

## SHIRINERS HOLD BANQUET AND SMOKE CONCERT

Enjoyable Evening in the Mainland  
 Twenty-Many Representatives  
 Present from Distant Points—  
 Excellent Speeches Delivered by  
 Shiriners.

The Shiriners held a banquet and smoking concert in the Mainland Temple last evening. The chairman of the evening was noble John A. MacDougall. A happy occasion it would be hard to find. The program was as follows:  
 Toast—"The King and Craft," responded to by Noble Jung Taylor, who, in his address, pointed out that while the Shirine devotee was actually no real part of Measury, it could be entered by those who possessed the coveted 12nd degree or by members of the Temple. It was an essential part of the assimilation of the social side of Measury, its cosmopolitanism could be understood when it was remembered that its roots were made on the shores of the Red Sea, and the Vedas, its votaries were in all corners of the world.

and thoroughly modern business block. The building is at 205 Jasper Avenue, east. The rooms occupied by the college have been equipped to order by the special needs of an up-to-date business college, and there is nothing so complete and better equipped rooms for the purpose to be found anywhere. The class rooms are lofty and exceptionally well-lighted, those on the front look out over the main thoroughfare of the city, while the rooms in the rear command a very fine view of the river valley.

**Steady growth.**  
 The fact that the school opened with only one pupil, and has grown steadily until in the seventh year there are 110 students, is the best indication that sound teaching methods are employed and that the best results are obtained. From the applications and inquiries that are constantly received it is safe to say that the number of pupils in attendance will be very largely increased. The accommodation of the new premises is practically double that of the old premises.

**Practical Equipment.**  
 The principal's office and the office practice rooms are situated in the front of the building, on the lower of the two floors. Behind these is a short-handled floor and a desk.

**FOR MEN**

## A CANADIAN AT WESTMINSTER

Special Writer for the Toronto Star and London Daily Mail, Mr. H. P. GARDNER, Correspondent at the Westminster of the House of Commons, writes on the Irish and the Canadian at Westminster.

London, Nov. 12. Mr. Philip Snowden, the Irish member for Blackburn, is pressing the amendment to the bill for the Irish rule bill. He says that women members who have been interested in it, it is in the spirit of the celebration bill which is proposed to give the Irish vote in the United Kingdom, but which was introduced last year, was largely by the action of the Irish members.

Mr. Snowden is in deep earnest. He is a Socialist and his wife is a suffragist, so there is no doubt as to his attitude at this time. Outside the hall and the of a November day, he is a picture of a man in a suit, the best of the Irish rule bill. He is a picture of a man in a suit, the best of the Irish rule bill. ### Quick Action on a Cold

One of the most important points in treating a cold is to get quick, at the first sign of trouble, before the cold has a chance to get "settled" anywhere.

The natural point of vital importance is the throat.

## NA-DRU-CO

### Syrup of Unseed, Licorice and Chlorodyne

This safe and reliable licorice remedy acts very quickly, it relieves the irritation and "stuffed up" feeling in the air passages, loosens the phlegm, promotes expectoration, soothes the tickling which makes you cough, and drives out the cold before it gets too deep.

Even if the cough or cold has become deep-seated and persistent, NA-DRU-CO Syrup of Unseed, Licorice and Chlorodyne will break it up.

In 25c and 50c bottles, at your druggist's.

Hangs in Gallery of St. James' Palace, Where Peace Delegates Meet.

### ELABORATE SOCIAL FUNCTIONS PLANNED

Delegates of Balkan Allies and Ottoman Empire are Splendidly Quartered.

London, Dec. 13.—The formal work of the peace delegates representing the Ottoman empire and the allied Balkan nations, will begin on Monday next, when the delegates will open their sessions in the palace of St. James, which will have the effect of remarking the map of the near east.

When the plenipotentiaries gather on the balcony of St. James palace, they will find themselves well surrounded by the most exclusive of guests. The "picture gallery" which has been reserved for the plenipotentiaries, is the most splendid apartment in the palace, and the delegates will find themselves surrounded by the most exclusive of guests.

The delegates of the Ottoman empire will be quartered in the palace of St. James, and the delegates of the allied Balkan nations will be quartered in the palace of St. James.

A long table stretches down the middle of the gallery and on this are placed three hundred portraits, for all the plenipotentiaries and a massive altar at the end, which was presented by Charles II. to his private chapel.

## U.S. AMBASSADOR IS SERIOUSLY ILL.

Whitehall Held Suffering From Asthma in London—English Winter Weather Regarded as Unfavorable for Persons Afflicted With Malady.

London, Dec. 13.—Whitehall held, United States ambassador to Great Britain, is seriously ill. He is suffering from asthma and his condition has become considerably worse during the past week. Several specialists are in attendance.

The ambassador was not well when he returned from America in October. Afterward he caught cold from which he was recovering when he suffered a relapse after delivering his speech at the opening session at the University of Wales at Aberystwyth, October 21, at which he overtaxed his strength. He has been confined to his room at Trichester house most of the time since that date. The English winter weather is regarded as very unfavorable for persons suffering from the malady with which the ambassador is afflicted.

A bulletin issued this afternoon by the doctors in attendance on Mr. Reid, says: "The American ambassador is suffering a severe attack of his old asthmatic trouble, he is much exhausted, but there are no complications."

## BATTERED BODY FOUND ON TRACKS

Unknown Victim at Pointe Aux Trembles Well Dressed and of Striking Appearance.

Montreal, Dec. 13.—The badly battered body of an unknown man, with his head completely severed, was found today on the tracks of the Northern Railway at Pointe Aux Trembles, near Longue Pointe, this morning at seven o'clock.

The body was brought into the morgue and the positive feature of the case is that a rigid examination failed to reveal a single identification mark, except a photograph in his pocket, which has led the authorities to conclude that it is a case of suicide.

The photograph had evidently been taken recently but the name and address of the photographer had been removed. It represents a man of rather striking appearance, well dressed and bearing evidence of culture and refinement.

## Edmonton Again Leads In The Percentage Increase

Bank Clearings for Week Tell Same Story as Every Previous Week During the Present Year—Sixth in Actual Size of the Clearings.

Edmonton occupies the place of sixth city in the Dominion in regard to the size of her bank clearings for the week ending December 13th, but in point of rate of increase over the corresponding week of last year, she leads the Dominion, with an increase of 4.1 per cent.

Port William, whose bank clearings, however, amount to only one-eighth of those of Edmonton, occupied second place in point of increase, according to the clearing for the past week, while Saskatoon comes third.

The figures, and comparisons with the corresponding week last year, are as follows:

	1911	1912
Edmonton	\$90,502,245	\$93,231,002
Toronto	\$5,204,272	\$5,234,268
Vancouver	\$3,124,214	\$3,127,445
Calgary	\$2,842,120	\$2,842,120

## COMMITTED SUICIDE BY CUTTING HIS THROAT

Alexander Malcolm, Aged 35, a Scotchman, at Wilkie, Sask., Had Recently Out From Scotland, Ends Life by Cutting Life Throat From End to End in Wilkie Hotel.

Halifax Special.  
Wilkie, Sask., Dec. 12.—A man named Alexander Malcolm, about 35 years of age, committed suicide today in his room at the Wilkie Hotel, where he was boarding, by cutting his throat with a razor. He made hearing unusual sounds coming from the room notified the management and upon looking on the inside. On looking through the transom the body of the man was seen covered with blood, reclining crosswise on the bed with a razor stuck in his throat, which had been cut practically from ear to ear by the razor, which previous to death had been deposited on the chair beside the bed.

Malcolm was employed by Messrs. McKinnon & Co., butchers, at this point, and was considered a good, conscientious man. Evidence given at the inquiry upon the circumstances surrounding the man's death showed that he was presumably a good financial circumstance, and a few hours previous to his act spoke of his anticipated pleasure of being united to his wife and little daughter, who were to have come out from Scotland, where they resided. The room was a liberal shakedown, as the unfortunate man had evidently staggered from the looking glass to the bed, where he expired in a few minutes after perforating the vein.

## BAVARIANS' DEMAND A REAL LIVE KING

People Throughout Country Want Monarch in Place of Prince Regent.

Munich, Dec. 12.—The Nachrichten, the most influential newspaper in Bavaria, says: "Strong reasons of state dictate that the view held everywhere in the land should prevail and that the constitutional idea of Bavaria should be given that vigor which can only be secured with the personal exercise of the sovereignty."

The provision of an actual king instead of a regent prince, as ruler, is spreading widely in Bavaria. The clerical newspapers in close touch with the Bavarian cabinet today join the liberal newspapers in urging the new prince regent to assume the crown as Ludwig III.

The changes would involve complicated constitutional alterations but the most delicate point in connection with the matter is, according to acquaintance of Prince Ludwig, the finding of a suitable form in which to consummate the popular wish to the regent himself.

Making Good Time Down Lake.

# Buy Ground-Floor Industrial Property NOW

Buy where the Industries are.  
Buy where the Industries are going.  
Buy where your profits are quick.  
Buy where your profits are certain.

In the last two weeks we have been able to announce the location of two large industries, which will very greatly enhance the value of **Kennedale**.

One of these industries will start building operations within the next three weeks; this is absolutely certain. It will be a plant of considerable magnitude, and a large number of men will be employed, which will cause a great demand for homes and property in the Northern portion of

# KENNEDALE

In the South, on the Grand Trunk Pacific Trackage, another huge concern will locate. It will commence building operations in the early spring. This is a Wholesale Harness Manufacturing Company, and it is expected that their plant will cost anything from \$60,000 to \$100,000.

You should go out and see Kennedale. See where the industries are now. See where others are going, and then you will be better able to realize what enormous values Kennedale is bound to reach.

Industrial Property always has a higher value than residential property, and the wise men who are buying in Kennedale today are the ones who are certain to see extraordinary profits in the near future.

## TO FLOG WHITE SLAVERS.

Bill Receives Royal Assent and Notorious Offenders Fly From London.

London, Dec. 12.—What is known as the white slave traffic bill received the royal assent yesterday and immediately became operative. A number of notorious offenders in consequence fled from London.

The provisions of the bill empower a constable to take into custody without a warrant any person whom he has cause to suspect of committing or attempting to commit violations of the law. Such a person may be detained to suffering a term of imprisonment, to be sentenced to be whipped. Men supported by white slaves are brought under the vagrancy act of 1848, and if convicted under that act a second time shall be liable to a flogging.

## Prize Council Judgments.

London, Dec. 12.—Judgment was given in the following cases today: Kerr Wilson vs. Delta Corporation, B.C. Montreal vs. Canadian Pacific railway vs. British and American Oil companies, and Canadian Pacific railway vs. Canadian Oil companies. None in appeal, was granted.
